

Hawaii HDOT permit practice test 11

From the Official Hawaii Driver's Manual. Free at permitpracticetestdmv.com/hawaii/

21 questions. Circle one answer for each. Answer key on the last page. Name: _____ Score: _____ / 21

1. At night, what equipment must a bicycle have in Hawaii?

- A. A headlight and a rear reflector
- B. A horn
- C. Nothing
- D. Only pedal reflectors

2. On a Hawaii roadway, how must bicyclists ride when there are several of them?

- A. Single file (two abreast only on a wide bike lane or path)
- B. Three abreast
- C. In the center of the lane
- D. Any way they like

3. How fast may a bicyclist ride on a sidewalk where it is allowed in Hawaii?

- A. 10 mph or less
- B. 15 mph or less
- C. Any speed
- D. 5 mph or less

4. What do lane use control signs at an intersection tell you?

- A. Which turning movements are required or permitted from each lane
- B. Which lanes are closed
- C. Parking rules
- D. Speed limits by lane

5. What do exclusion signs with a red circle (or red circle and diagonal) do?

- A. Restrict or prohibit vehicles, movements or other activities
- B. Warn of hazards
- C. Mark school zones
- D. Give directions

6. What do large flashing or sequencing arrow panels in a work zone tell you?

- A. A speed trap
- B. Which lanes to move into because the road ahead is closed
- C. A detour to a hospital
- D. Nothing

7. What is the basic color of construction and maintenance traffic control devices?

- A. White
- B. Orange
- C. Yellow
- D. Red

8. Can non-prescription allergy remedies or cold pills affect your driving?

- A. No
- B. Only if mixed with coffee
- C. Only for older drivers
- D. Yes, some contain ingredients that can affect your driving ability

9. Under Hawaii's Implied Consent law, what have drivers on public highways agreed to?

- A. Be tested to determine the amount of alcohol in their blood
- B. Pay fines immediately
- C. Random car searches
- D. Carry breathalyzers

10. Does it matter whether you drink beer, wine or whiskey?

- A. Yes, wine is safer
- B. Only liquor counts
- C. No, it's the amount of alcohol that enters your blood that matters
- D. Yes, beer is safer

11. How does a small amount of alcohol on an empty stomach affect you?

- A. Only after hours
- B. More rapidly than after a meal
- C. Less than after a meal
- D. Not at all

12. Before a trip to an unfamiliar area, what does the Hawaii manual advise?

- A. Drive at night to avoid traffic
- B. Plan the trip: know the exact destination, choose a route and allow enough time
- C. Just start driving
- D. Follow another car

13. You are about to drive an unfamiliar vehicle. What should you do first?

- A. Check only the radio
- B. Drive it fast to learn it
- C. Nothing
- D. Take a few minutes to learn where the signals, lights, wipers, brakes, gear selector and horn are

14. What does the Hawaii manual list among the aging changes that affect older drivers?

- A. Reduced hearing and eyesight and increased reaction time
- B. Shorter decision time
- C. Better night vision
- D. Faster reactions

15. How can young drivers avoid being 'trapped' into risky driving?

- A. Drive faster than friends
- B. Accept challenges to prove their skill
- C. Resist the desire to show off and decline challenges
- D. Race only at night

16. What must you not do with your speed relative to posted signs in Hawaii?

- A. Drive at the posted maximum
- B. Drive slower than the maximum
- C. Drive faster than the posted maximum or slower than the posted minimum
- D. Match traffic

17. Is any race, speed contest or speed exhibition allowed on Hawaii public streets?

- A. Only on freeways
- B. Yes, at night
- C. No, none of any kind
- D. Only with a permit from police

18. Where may ice build up first if you drive in winter conditions outside Hawaii?

- A. On straight highways
- B. On or under bridges and in shady areas
- C. In tunnels
- D. On sunny roads

19. Where in Hawaii are you most likely to meet fog, per the manual?

- A. In cities
- B. At sea level beaches
- C. On roads at higher elevations where low clouds meet the ground
- D. In tunnels

20. How does Hawaii define a business district along a highway?

- A. Any area with a store
- B. Where within any 600 feet, business buildings occupy at least 300 feet of frontage on one side or collectively on both sides
- C. Any area within city limits
- D. Any area with traffic lights

21. How often must Hawaii vehicle registrations be renewed?

- A. Annually; they expire at the end of the 12th month
- B. Every two years
- C. Every five years
- D. Only when sold

Answer key: Hawaii practice test 11

From the Official Hawaii Driver's Manual. Free at permitpracticetestdmv.com/hawaii/

1. A: A headlight and a rear reflector

A bicycle ridden at night needs a headlight and a rear reflector by law. The manual also recommends a rear light and pedal reflectors. (Bicyclists: Traffic Regulations, page 98)

2. A: Single file (two abreast only on a wide bike lane or path)

Bicyclists on the roadway ride one behind another. They may ride side by side only on a bike lane or path wide enough not to hold up traffic. (Bicyclists: Traffic Regulations, page 98)

3. A: 10 mph or less

Outside business districts, bicyclists may ride on sidewalks at 10 mph or less and must yield to pedestrians. (Bicyclists: Traffic Regulations, page 98)

4. A: Which turning movements are required or permitted from each lane

Lane use control signs show turning movements required or permitted from specific lanes; move only as indicated for your lane. (Lane Use Control Signs, page 45)

5. A: Restrict or prohibit vehicles, movements or other activities

Exclusion signs restrict or prohibit vehicles, vehicle movements or other activities. (Exclusion Signs, page 46)

6. B: Which lanes to move into because the road ahead is closed

Arrow panels guide drivers into certain lanes and show that part of the road ahead is closed. (Flashing Arrow Panels, page 51)

7. B: Orange

Orange is the basic color for work zone signs, barricades, drums, cones and arrow panels. (Construction and Maintenance Devices, page 49)

8. D: Yes, some contain ingredients that can affect your driving ability

Some allergy remedies and cold pills sold without a prescription contain ingredients that can affect your driving. (Other Drugs, page 56)

9. A: Be tested to determine the amount of alcohol in their blood

Anyone who operates a vehicle on Hawaii's public highways is deemed to have consented to testing for blood alcohol. (The Law: Implied Consent, page 55)

10. C: No, it's the amount of alcohol that enters your blood that matters

It doesn't matter what you drink; the amount of alcohol entering your blood causes the problem. (Alcohol, page 55)

11. B: More rapidly than after a meal

A small amount of alcohol on an empty stomach affects you more rapidly than if you had recently eaten. (Alcohol, page 55)

12. B: Plan the trip: know the exact destination, choose a route and allow enough time

Know your destination's exact location, choose an appropriate route, allow sufficient time, and postpone if conditions seem too difficult. (Trip Plan, page 60)

13. D: Take a few minutes to learn where the signals, lights, wipers, brakes, gear selector and horn are

Familiarize yourself with the turn and hazard signals, headlamps, wipers, brakes, gear selector and horn before driving. (Vehicle Condition: An Unfamiliar Vehicle, page 60)

14. A: Reduced hearing and eyesight and increased reaction time

Aging can reduce hearing and eyesight, slow reaction time, lengthen decision time and shorten attention span. (Problems of the Older Driver, page 25)

15. C: Resist the desire to show off and decline challenges

Resist the urge to exhibit and compete, and decline all challenges to prove your or your vehicle's capabilities. (Problems of the Younger Driver, page 25)

16. C: Drive faster than the posted maximum or slower than the posted minimum

Posted limits work both ways: you may not go above the maximum or below a posted minimum. (Regulatory Signs: Speed Limit Signs, page 44)

17. C: No, none of any kind

Racing, speed contests and speed exhibitions are all illegal on public streets and highways. (Speed Restrictions, page 28)

18. B: On or under bridges and in shady areas

Bridges and overpasses can ice over while the rest of the road is clear, and shaded spots stay icy longer. (Winter Driving, page 77)

19. C: On roads at higher elevations where low clouds meet the ground

Fog almost never occurs at lower elevations in Hawaii but may be met on roads at higher elevations. (Fog, page 76)

20. B: Where within any 600 feet, business buildings occupy at least 300 feet of frontage on one side or collectively on both sides

A business district is where, within any 600 feet along a highway, business buildings occupy at least 300 feet of frontage on one side or both sides collectively. (Definitions: Business District, page 8)

21. A: Annually; they expire at the end of the 12th month

Registrations are renewed every year. Each vehicle's registration runs out at the end of its 12th month, so expiration dates are staggered. (Motor Vehicle Registration and Title, page 21)
