Answer key: Maryland practice test 6

From the Maryland Driver's Manual (DL-002). Free at permitpracticetestdmv.com/maryland/

1. B: Use the information on the blue and white Emergency Notification System (ENS) sign

Report emergencies using the information on the blue and white ENS sign. (Section 5: G. Highway-Railroad Crossings, page 30)

2. A: Speed cameras are active

Flashing blue lights mean the work zone speed cameras are active. (Section 5: H. Work Zone Safety, page 31)

3. C: The work zone is active and workers are present

Flashing amber/yellow lights mean an active work zone with workers present. (Section 5: H. Work Zone Safety, page 31)

4. A: Highway maintenance vehicles or service equipment

Flashing green lights may be found on highway maintenance vehicles or service equipment in and before work zones. (Section 5: H. Work Zone Safety, page 31)

5. D: Orange

Orange is the color for work zones. (Section 5: H. Work Zone Safety, page 31)

6. D: Traffic already in the circle

Roads leading to traffic circles have yield signs; always yield to traffic already in the circle. (Section 5: I. Traffic Circles (Roundabouts), page 31)

7. A: The right

Reduce speed, keep to the right of the island and yield to pedestrians in the crosswalk. (Section 5: I. Traffic Circles (Roundabouts), page 31)

8. B: After you pass the exit before the one you plan to take

Stay in your lane, signal right and move to the outside lane after you pass the exit before the one you plan to take. (Section 5: I. Traffic Circles (Roundabouts), page 31)

9. A: No, you don't need to wait if there is no traffic in it

You do not need to wait to enter the traffic circle if there is no traffic in it. (Section 5: I. Traffic Circles (Roundabouts), page 31)

10. A: A large road with no intersections or traffic lights and limited entrances and exits

Limited access highways have no intersections or traffic lights and a limited number of entry and exit points. (Section 5: J. Interstate Driving and Limited Access Highways, page 31)

11. B: The solid lines dividing the entrance from the highway

You should not cross the solid lines that divide the entrance and the highway. (Section 5: J. Interstate Driving and Limited Access Highways, page 32)

12. D: Continue off the exit ramp and find a way to re-enter

Continue until you are off the exit ramp and then look for a way to re-enter; never stop and back up on the highway. (Section 5: J. Interstate Driving and Limited Access Highways, page 32)

13. B: Only when your vehicle is disabled or another emergency occurs

You may stop on the shoulder only when your vehicle is disabled or you have another emergency, with flashers on. (Section 5: J. Interstate Driving and Limited Access Highways, page 32)

14. C: Turn on emergency flashers and stay inside your vehicle if you can

Turn on emergency flashers and stay inside if you can; standing or walking along a highway is very dangerous. (Section 5: J. Interstate Driving and Limited Access Highways, page 32)

15. B: Headlights and flashing hazard lights

Drivers in a funeral procession must turn on headlights and flashing hazard lights. (Section 5: K. Funeral Processions, page 32)

16. C: Yes, if it is part of the procession with its lights on

You may go through a red signal if you are part of a funeral procession with your lights on. (Section 5: K. Funeral Processions, page 32)

17. C: Yield until all procession vehicles have passed, unless you can proceed without crossing its path

Other vehicles must yield to a funeral procession, even on green, until it has passed. (Section 5: K. Funeral Processions, page 32)

18. B: 25 mph or less

The slow-moving sign shows the vehicle is going 25 miles per hour or less. (Section 5: L. Slow Moving Vehicles, page 32)

19. D: Use your emergency flashers to warn drivers behind you

If you must follow a slower vehicle, use your emergency flashers to warn others coming up behind you. (Section 5: L. Slow Moving Vehicles, page 32)

20. B: .08 or higher

Maryland considers drivers under the influence of alcohol at a BAC of .08 or higher. (Section 6: A. Alcohol, Drugs and Driving, page 33)

21. C: Yes, if their judgment and coordination are impaired

Your judgment and coordination may be impaired at a much lower BAC, which could result in criminal charges. (Section 6: A. Alcohol, Drugs and Driving, page 33)

22. B: Your weight, body fat, when and how much you ate, tiredness, mood and medications

Weight, body fat, food, tiredness, mood and medications all change how alcohol affects your driving. (Section 6: A. Alcohol, Drugs and Driving, page 33)

23. B: License suspended or revoked, and a charge for violating the alcohol restriction

Under 21, drinking any alcohol is illegal; the license will be suspended or revoked and the driver could be charged with violating the alcohol restriction. (Section 6: A. Alcohol, Drugs and Driving, page 33)

24. A: Yes

A six-pack with open, empty or missing bottles or cans can be considered an open container. (Section 6: A. Alcohol, Drugs and Driving, page 33)

25. D: The driver and passenger seats and anywhere they can easily reach

The passenger area includes the seats and any place the driver or passengers can easily reach. (Section 6: A. Alcohol, Drugs and Driving, page 33)
